## Education

### CVM University

Aug 2021 – May 2025

Bachelor of Engineering in Computer Science CGPA: 7.91

Anand, Gujarat

## Technical Skills

HTML/CSS, Php, Laravel, Tailwind, JavaScript, MongoDB, React.js, Express, .NET, C-sharp, jQuery, MVC, AJAX, Node.js, Github, Postman Apis, Hindi-AI Data Trainer, English-AI Data Trainer

## Work Experience- Enjay IT Solutions Ltd.

### CRM WEBSITE | PHP, LARAVEL12

- Developed a feature-rich CRM system using PHP and Laravel 12, ensuring robust performance and scalability.
- Developed key CRM features such as customer tracking, task management, project handling, and leave management to enhance organizational efficiency.
- Adopted a mobile-first approach, ensuring optimal user experience across smartphones, tablets, and various devices.
- Emphasized user experience by prioritizing seamless functionality and intuitive navigation across different screen sizes and resolutions.

### Role-Based Access Control (RBAC) in Loan Management System | Javascript, Reactjs

- Developed a Role-Based Access Control (RBAC) system in a Loan Management System using JavaScript and React.js.
- Implemented secure role-specific access for Admin, and Customer
- Developed intuitive UI components for seamless role selection and login using React.js.
- Dynamic Role Management Integrated flexible role assignment and permission updates to adapt to evolving business needs.
- Ensured data protection and improved system efficiency with dynamic role management.

## Projects

### CRUD Operations in Laravel — PHP, MySQL

- \* Developed a CRUD system using Laravel with PHP and MySQL for efficient data management.
- \* Implemented seamless Create, Read, Update, and Delete functionalities with proper data validation
- \* Designed intuitive UI forms for data entry and implemented robust backend logic for secure database
- \* Ensured data integrity by implementing request validation, authentication, and authorization for secure access control.

### Smart Attendance System Using Face Recognition | Python, Flask, HTML

- \* Developed a web-based Smart Attendance System leveraging Python Flask for backend logic and HTML/CSS for frontend design.
- \* Integrated OpenCV for real-time face detection and recognition to automate attendance marking.
- \* Utilized a Webcam Stream interface for live facial recognition with an option to upload background images for visual enhancement.
- \* Improved attendance tracking efficiency by minimizing manual errors and enhancing user interface for seamless operation.
- \* Ensured data security and accuracy by implementing robust image processing techniques and efficient database management.

## Certification

- \* **Google Cloud Study Jam**, Completed hands-on training in Google Cloud services, including Compute Engine, Cloud Storage, and BigQuery. Gained practical experience in deploying, managing, and scaling cloud applications efficiently.
- \* **LinkedIn Marketing Solutions Fundamentals**, Developed expertise in LinkedIn advertising strategies, campaign optimization, and audience targeting. Gained practical insights to create impactful marketing campaigns using LinkedIn's platform.
- \* **Code Unnati Advanced Emerging Technologies** Completed training on Machine Learning, IoT, Deep Learning, Computer Vision, and SAP. Participated under the Code Unnati Program (2023-2024), a CSR initiative by SAP in collaboration with Edunet Foundation.
- \* **TCS High Demand Industry Soft Skills Training** Enhanced communication, teamwork, and problem-solving skills tailored for high-demand industries. Gained practical insights to excel in professional environments through real-world scenarios and role-play activities.
- \* **University Topper** G.K Quiz Rank-3rd Bollywood Quiz Rank-2nd
